

Claims

- [1] A Velcro-type hair-accessories connector, comprising:
a hair holding unit (100) combined with a real hair (310); and
a hair accessory (200) including an artificial hair, which is combined to the hair holding unit (100) in a Velcro manner,
wherein the hair holding unit (100) includes at least one holder (110) fixed to the real hair (310), and a holder combiner (120) combined to the hair accessory (200) in a Velcro manner,
wherein the hair accessory (200) includes an artificial hair (210) provided in a lower portion thereof, and an accessory combiner (220) provided at a top of the artificial hair (210) and combined to the hair holding unit (100) in a Velcro manner,
wherein one of the holder combiner (120) and the accessory combiner (220) is provided with a plurality of hooks (410), and the other is provided with a plurality of loops (420).
- [2] The Velcro-type hair-accessories connector according to claim 1,
wherein the hair holding unit (100) has a body (111) with a tube shape that allows injection of an adhesive (320) therein so that the holder (110) and the real hair (310) are fixed by means of the adhesive (320).
- [3] The Velcro-type hair-accessories connector according to claim 1,
wherein the hair holding unit (100) has a body (111) made of a material with plasticity, which does not elastically restore its original shape after being pressed, so that the real hair (320) is inserted and supported in the holder (110).
- [4] The Velcro-type hair-accessories connector according to claim 3,
wherein a friction layer (113) is coated on an inner side of the holder (110) so as to prevent the real hair (310) from being slipped in the holder (110).
- [5] The Velcro-type hair-accessories connector according to any of claims 1 to 3,
wherein the holder (110) of the hair holding unit (100) has fixers (112) protruded rearward from upper and lower ends of the holder (110) so that the fixers (112) are combined to one side of the holder combiner (120).
- [6] The Velcro-type hair-accessories connector according to any of claims 1 to 4,
wherein holder (110) has the body (111) in a clip shape, which has an opening (114) at one side so that the real hair (310) is inserted into the holder (110) in an easier way.
